SKILLS

Programming

Python

SQL

Front-end HTML, CSS, JavaScript)

Data Science & Tools

Pandas

NumPy

Seaborn

Website Analytics

Platforms

PyCharm

Jupyter Notebook

VS Code

Core Methodologies

On-page SEO

Keyword Research

Content Optimization

Machine Learning Fundamentals

TRAINING / COURSES

1. Python fundamentals for beginners -Great learning

2. Python for data science-Great learning

3. Python programming in Hindi - Great learning

4. Introduction in artificial intelligence -Great learning

5. Data Science Foundations-Great learning

6. Introduction to project management-IBM

7. Introductions to front end development-Meta

8. Version control-Meta

9. C Programming in Hindi - Great learning

SUMMARY

B.Tech student in Computer Science Engineering specializing in Artificial Intelligence & Machine Learning, equipped with a strong analytic foundation and a deep focus on Search Engine Optimization SEO and digital marketing paradigms. Proficient in integrating standard technical programming capabilities (Python, SQL, front-end development) with core SEO strategies including semantic optimization, website data analytics, and systematic keyword deployment. An agile problem solver committed to driving organic website scalability, enhanced user engagement, and data-driven visibility architectures

EDUCATION

➤ B.Tech in Computer Science Engineering (AI & ML)
Haridwar University, Roorkee

📅 2023-2027

➤ 12th (Higher Secondary)

Bihar School Examination Board, Bhabhua

📅 2021-2023

➤ 10th (Secondary)

D.A.V School, BHABUA

📅 2021

PROJECTS

AuctionHub

All-in-One E-Commerce and Dynamic Bidding Platform

- Engineered a full-stack e-commerce marketplace providing scalable item listing alongside standard user bidding interfaces

- Optimized page architecture and front-end content workflows to secure reduced asset load latency, advancing search engine crawls and mobile device accessibility metrics

Myntra and Flipkart Clone

E-Commerce UI/UX & Structural Replication Project

- Rebuilt core user workflows and interface layers matching industry-standard retail engines to refine layout delivery
- Applied proper semantic HTML tags, clean navigation schemas, and keyword-aligned formatting structures to implement optimal foundational technical SEO rules
